REPORT OF THE BOARD OF HEALTH.

To the Selectmen and Citizens of the Town of Hillsborough, N. H.:

Your Board of Health is happy to report that the good sanitary condition of the town reported one year ago has continued through the past year. The town has been practically free from infectious and contagious diseases.

The conditions surrounding the source of water supply of the Bridge village are believed to be FIRST CLASS.

Two of your Board attended the "School of Instruction for Health Officers," held at Concord last December, with much benefit.

We again ask the co-operation of all citizens for the continuance of present good conditions.

Respectfully Submitted,

JOHN GOODELL,

LEON E. ANNIS,

Board of Health,

Feb. 15, 1905.

REPORT OF
THE BOARD OF EDUCATION,
For Special School District,

For the Year Ending February 15, 1905.

The Board of Education for the Hillsborough Bridge Special School District respectfully submits the following report for the year ending Feb. 15, 1905:

The progress of the schools for the past year has been very satisfactory and the citizens should feel gratified with the advance that has been made and the condition in which they are at the present time.

At the beginning of the school year we found that we had about seventy scholars in the second and third grades and only one school room with one teacher to accommodate this number. The board was obliged to divide them into two schools. They accomplished this by removing the first grade into a room in the Messenger building and using the thus vacated room for the second grade.

We have been fortunate in securing competent and efficient teachers who have manifested their ability and faithfulness, having a high conception of their responsibilities in the discharge of their respective duties.

We have at the present time forty-five scholars in our high school which has maintained a high degree of excel-

lence under the instruction of Prof. R. B. Barton and his able assistants. We are gratified to notice that the majority of the scholars realize that having completed or graduated from the ninth grade their education is not finished, but just commenced and a thorough course in our high school is essential and necessary. A thorough education or preparation to fit themselves to enter any college can be obtained if they so desire.

It is the desire of the board to work in harmony with all citizens, especially the parents of the scholars, to have our schools firstclass in every particular and we request that if any person has any suggestion to make whereby the schools can be benefitted they will bring it to the attention of the board who will be pleased to co-operate in all matters that will be for the best interest of our public schools.

We wish to express our thanks to the citizens of the district for their aid and assistance.

STILLMAN H. BAKER,
JOSEPH W. CHADWICK,
LUCY E. ANNIS,

Board of Education.
